

The San Francisco Tesla Society

Fall 2004 Schedule of Free Lecture Presentations
at our fabulous NEW MEETING LOCATION
Round Table Pizza - Banquet Room on 2nd floor
5160 Geary Blvd. @ 16th Avenue, San Francisco, California

Sunday, September 12, 2004 1 p.m.

Tesla Based Wellness Electronics Briefings

THOMAS VALONE, Ph.D., presents "**Electrotherapy with Tesla Coil Design: An Introduction to Bioelectromagnetics**". JEFFREY BEHARY., presents "**Turn of the Century Electrotherapy Discoveries**". RALPH SUDDATH., presents "**Discovery of High Voltage Electromagnetic Healing Devices**". RYN RAEVIS., presents "**Healing With Electricity: Increasing Normality In Soft Tissue Healing**". MARK NEVEU, Ph.D., presents "**Cancer & Electromagnetic Frequency Therapy: An Emerging Opportunity**".

The September briefings are presented via DVD's originally recorded by Lost Arts Media & The Integrity Research Institute (800-952-5678) at the First Nikola Tesla Energy Conference & Exposition, Sheraton College Park Ballroom, Beltsville, Maryland, November 8-9, 2003 (<http://users.erols.com/iri/teslaconfer.htm>).

Sunday, October 10, 2004 1 p.m.

MOHSEN HOURMANESH, D.E.D., presents "**The Role of Salt and Water in the Human Metabolism for Optimal Health**".

Mohsen will discuss anabolic and catabolic interactions, the differing effects of industrial, rock, crystal and sea salt in our diets, and much more. Mohsen Hourmanesh is an interdisciplinary scientist with interesting synergistic experimental applications expertise in the fields of sustainable environmental design and alternative health modalities. Mo received his Doctorate of Environmental Design from Texas A & M University in 1979. In his pursuit of optimal health design Mohsen has investigated Avicenna Medicine, Bio-Gas, anaerobic digestion, bio-geometry, Phiometry and Phiologics of optimum health, naturopathic health research, nutropathic health research, naturopathic architecture, nutropathic architecture, the role of pH in bio magnetic and electrical pulse research, radisthesia, enesthisia, synesthesia, the importance of symbiotic relationship in soil and plants on optimum health, Neurotransactivities of optimum health, pain and allergy as the self diagnosis of the regulatory function of the body, Rife technology, PAPIMI research on the vibratory rates of water and PAPIMI research on the vibratory rates of bulbs.

Sunday, November 14, 2004 1 p.m.

JASMINA L.VUJIC, Ph.D. (rescheduled) presents "**Nikola Tesla: The Genius Who Lit The World**". Dr. Vujic is an Associate Professor of Nuclear Engineering at U. C. Berkeley where she co-taught a recent Freshman Seminar focusing on Nikola Tesla's amazing scientific accomplishments. She received her Ph.D. in 1990 and MS in 1987 in Nuclear Science from the University of Michigan at Ann Arbor. She received an MS in Engineering Physics in 1984 and a BSEE in Electrical & Nuclear Engineering in 1977 from the University of Belgrade, Yugoslavia. Dr. Vujic is also a board member of the Tesla Memorial Society of New York.

For more information about the San Francisco Tesla Society, please visit us on the Internet at www.sftesla.org where you can email us and see free videos of past presentations..
