

# The San Francisco Tesla Society

June 2010 - Schedule of Free Lecture Presentations at the  
**San Francisco Public Library - Richmond Branch**  
351 9<sup>th</sup> Avenue @ Clement, San Francisco, California  
10<sup>th</sup> Avenue entrance. Call our Hotline **(415) 820-1451** for more information

Sunday, June 13, 2010 1:45 p.m. - 4:00 p.m.

**RICHARD GAGE, A.I.A.** presents "**9/11: Blueprint for Truth: The Architecture of Destruction: Re-examining the 3 World Trade Center High-rise Collapses**". "World Trade Center 7 (WTC 7), a 47-story steel-frame building, half the height of the towers and one block away, collapsed symmetrically, straight-down, at free-fall speed, at 5:20 PM on 9/11/2001, into a pile of rubble no greater than 4 stories high? This presentation is focused on reviewing data gathered by government reports, videos of the collapses, and eye-witness accounts which have surfaced since 9/11/2001. To fully understand what happened that day, and to prevent this kind of collapse from ever happening again, we must have a full, unbiased & vigorous examination of all the evidence available. Richard Gage has studied these collapses for 3 years, along with 1,000+ Architects & Engineers for 9/11 Truth. They have come to the conclusion that the official story and investigation have ignored a great deal of evidence and left key questions unanswered. The architects & engineers have publicly signed a petition calling for a new, fully funded, unimpeachable Congressional investigation with subpoena power.

Richard Gage is a member of the *American Institute of Architects* and a founding member of *Architects & Engineers for 9/11 Truth*. For more information, see <http://ae911truth.org>.

---- IN OTHER NEWS ----

On June 5-6 Conspiracy Con will be celebrating its 10th anniversary. SF Tesla speakers Dr. Len Horowitz, Dr. Robert Rowen, Charles Ostman, Rob States, Richard Gage and others will all be on site. We are also pleased to announce that for the first time in California in over ten years, Paul Pantone's GEET technology will be publicly demonstrated by George Gaboury, Charles Ostman & Casey O'Connel at Con Con X. For those who have been following the gulf environmental crisis, come to the Santa Clara Marriott Hotel to see what GEET can do to crude oil mixed with salt water. Are you listening, BP?

This year's speakers at Con Con include: Dr. Len Horowitz, Michaels S. Coffman, Ron McDonald, H. Michael Sweeney, Jim Tucker, Dr. Bill Deagle and many more. Topics include: The Global Warming Scam, Truth Behind the Alternative 3 Hoax, Total Slavery & The Federal Reserve, The Bilderbergs, The Dangers To Alternative Energy Researchers and many more. A great thanks goes to conference organizer Brian Hall for 10 years of extraordinary service as a dedicated activist empowering significant whistle blowers & champions for much needed reform. For more information, see <http://conspiracycon.com> or call (925) 449-6844.

.....

SF Tesla Speaker ERIC DOLLARD went public recently about the existence of his extraordinary Earthquake prediction laboratory featuring a sophisticated Alexanderson antenna array in the high desert of southern California. This unique experimental facility has been under development for over 15 years and is currently online and operational. The lab array is capable of supplying an accurate 24-48 hour warning of significant earthquake danger to the Los Angeles metropolitan area. SF Tesla speakers Charles Ostman, Jeff Hayes and Jim Berkland recently traveled with other scientists to Eric's laboratory to verify the facility's capabilities. Unfortunately, the current land owner of the research facility is trying to sell his property, cash out and evict Eric's system operator. There is considerable danger that this amazing resource capable of significant warnings to save lives, could soon be bulldozed to make room for land development. We are forming a task force to save Eric's lab. If you would like to help, please call our Tesla Society hotline below or email [sftesla@hotmail.com](mailto:sftesla@hotmail.com). For more information about Eric Dollard's research, see [www.american-marconi.org](http://www.american-marconi.org).

For more information about the San Francisco Tesla Society, call (415) 820-1451 or visit us on the Internet at [www.sftesla.org](http://www.sftesla.org) where you can email us and see free videos of past presentations.
